

Be on The US Youth Soccer Show on Fox Soccer Channel

Here is your chance to tell us what you want to see on The US Youth Soccer Show. Each month, The Show brings you unique and intriguing stories about the incredible things that US Youth Soccer players do to help their teammates, improve their community and spread US Youth Soccer to all kids.

The monthly program on Fox Soccer Channel brings you in-depth with US Youth Soccer events, players, coaches and more. But now it's your turn to tell us what you want to see each month.

Think about the soccer stories in your community and soccer club. Has your club worked to re-vamp an old park to allow more kids to be able to play soccer or is your club growing at an unbelievably rapid pace? What are you doing to get more kids in the game? Soccer is global and The Game For All Kids! Can you think of an outstanding coach, player or referee who has overcome great adversities to participate in the game? How has soccer bridged the cultural gap in your soccer club or community?

Is there a story that needs to be told? Then come on and tell us and maybe your idea will come to life on Fox Soccer Channel through The US Youth Soccer Show.

Everyone contributes to the team and the game of soccer, which enhances skills and camaraderie. How are you teaching and sharing the game you love with new soccer players? What are you and your team doing to reach out to your community? Do you have mad skills and think you can out juggle your teammate in a US Youth Soccer Trick off? Tell us all about what makes you unique.

Did you like the premier of US Youth Soccer Golf? Do you want to see more Soccer Golf or is there another creative soccer game you would like to see played? If you have created a new soccer game and want to see players try to master it, then send in information about the game and how it's played.

Take some time. Get together and talk with your friends, teammates and parents and put your thoughts into an email with your idea or ideas. Send them to theshow@usyouthsoccer.org.
